

The Record-Union is the only paper on the coast, outside of San Francisco, that receives the full Associated Press dispatches from all parts of the world. Outside of San Francisco it has no competitor, in point of numbers, in its home and general circulation throughout the coast.

SAN FRANCISCO AGENCY.

L. F. FISHER is Sales Agent for this paper in San Francisco and vicinity. He is authorized to receive advertisements and subscriptions, and collect for the same. Rooms 21 and 22, Merchants' Exchange.

NEWS OF THE MORNING.

In New York yesterday government bonds were quoted at 122 1/2 for 4 1/2, 122 1/2 for 4 1/2, sterling, \$4 1/4 to \$4 1/2; 103 1/2 for 8; silver bars, 102 1/2.

Mining stocks were fairly active in San Francisco yesterday morning, but prices were irregular. Gould & Curry fell to \$1, the lowest in a long time.

Near Chino, yesterday, Salathiel Chaney and H. C. Burton, brothers-in-law, quarreled about land and family matters, when the latter shot the former dead.

"Lin" Reynolds, on his death-bed at Martinsville, Ill., has confessed that he murdered John Randall in 1879.

John W. P. Russell, of Greenville, N. Y., was swindled by a sharper at the County Fair at Fond du Lac on Saturday.

Operations were resumed at the coal mines in Rock Springs, Wyoming, yesterday, after the Chinese strike.

The Porte has been dissuaded from sending Turkish troops to eastern Roumelia.

Small-pox is reported in New York and Brooklyn.

R. D. Stephens was yesterday appointed Postmaster at Sacramento, and E. A. Puschel at Bakersfield, Kern county.

Disastrous floods have occurred in southeastern Spain.

It is reported in Paris that China is massing a large force of troops on the Tientsin frontier.

King Humbert has sent \$10,000 to the cholera sufferers at Palermo.

The Belgian Government proposes to send paupers to Congo as colonists.

A meeting of Socialists in London, Sunday, was broken up by the police.

John P. Kelly dropped dead in San Francisco yesterday from heart disease.

John McElroy was found dead yesterday morning in a doorway at San Francisco.

Joseph Hanzing committed suicide in San Francisco yesterday with a revolver.

Mrs. R. J. Burke attempted to strangle a man with coal oil at Tombstone, A. T., yesterday, and the result was that the house was destroyed, and herself fatally burned.

The Oregon State Fair opened yesterday.

A premature blast near Redwood City, San Mateo county, yesterday, shockingly injured Hans Hansen and James Pomeroy.

Archbishop Verias is held for ransom by brigands in Turkey.

The deposed governor of Roumelia is a prisoner at Sofia.

Richard Howell lowered the world's bicycle record yesterday at Springfield, Mass.

Several earthquake shocks were felt in Benetown, Italy, yesterday.

Cholera is spreading in Sicily.

The Union Pacific Railroad Company have decided that no one implicated in the Wyoming massacre shall ever be employed by them again in any capacity.

The twenty-fifth annual San Joaquin Valley Fair opens in Stockton today, to last five days.

The small-pox scourge in Canada is spreading.

A disease similar to the Plymouth fever has broken out in Nantuxko, A. T.

The Canadian Pacific Railway Company have discovered that they are being robbed by their contractors and civil engineers.

Reverend Dr. H. H. H. of Brooklyn, N. Y., for breach of promise of marriage.

The race between the yacht Genesta and the battleship, for the Bremen's Reef Challenge Cup, took place at New York yesterday, when darkness set in the Genesta was two miles in the lead.

Threatening storms are prevailing on the coast of Peru.

Merchants implicated in the Caserit movement are being banished by the Peruvian Government.

THE BAR ASSOCIATION ON THE BUCKLEY CASE.

The Bar Association of San Francisco, to which the Supreme Court some weeks ago referred the matter of the charge that cases had been advanced upon the calendar of the Court through the influence of a political boss, Chris Buckley, has reported. The Association finds that Buckley did use his influence with attorneys in the cases to have two certain cases substituted as to date of hearing for other cases having precedence, and thus earlier decisions of the cases were had, and that for such service Buckley received a plump sum of \$500. But the Association finds that no member of the Supreme Court was concerned in the transaction, or was cognizant of it. The Association finds also that the City and County Attorney, Mr. Cowdery, took the appeals in the cases, the city being defendant in them. After his retrial from the office, he informed the plaintiff's attorney that there was a point in the cases, not then made known, which was fatal to the plaintiff's actions. Thereupon he accepted a retaining fee from the plaintiff, binding him not to be retained by the city and not to disclose the fatal point, and the plaintiff's attorney, Whittemore, was a party to the transaction, and paid over the money. These acts the Association holds to be in contempt of court as to Buckley and those who dealt with, and it advises the Supreme Court to take action against them. The Association proffers the Court a committee of lawyers to consult with the Attorney-General and presents the contempt proceedings. They also advise that Cowdery and the plaintiff's attorney, Whittemore, be cited to show cause why they should not be broken at the bar for unprofessional conduct in regard to the retention of Cowdery in the cases.

This is a pretty kettle of fish. It is gratifying to know that the report clears away the faintest suspicion that may have been entertained of the Court having any part in the matter. It is equally gratifying to know that the lawyers of San Francisco have the courage to condemn unprofessional conduct, and to hold some of their own members to account for what appears to be a very serious offense. Worse by far than the pretension of Buckley that he could procure an early decision from the Court, is the charge that the city Attorney took a fee not to disclose a point fatal to the case of one suing the city. If the knowledge he had of the point, he acquired as the people's representative, it was worse than unprofessional for him to secrete it. True, he was not City Attorney when the appeals were heard, but he took the appeals, and presumably then knew of the point that would prove fatal to plaintiff's case. If it was raised in the Supreme Court, he had, therefore, no right to accept a fee not to disclose that knowledge. This is the judgment of his law association, and if it is confirmed by the Supreme Court it ought to be, and doubtless will be punished. But until the

PACIFIC SLOPE.

DEATH OF A WELL-KNOWN SAN FRANCISCO JOURNALIST.

Terrible Blasting Accident—Fatal Quarrel Near Chico—Another Coal Oil Tragedy.

CALIFORNIA.

More California Wine Wanted at the Louisville Exposition.

SAN FRANCISCO, September 21.—The Louisville Exposition, which is to be held at the Louisville Exposition, writes that there is a great lack of samples of California wine at the exposition. It urges, in the interest of the grape-growers and wine-makers of the State, that more be sent on quickly and in great quantities. It suggests that samples of raw wines and samples of the same wines which have improved with age be furnished, in order to show the capabilities of improvement possessed by California wines, and the degree of perfection they attain in bottles.

CHINA STOPPED.

The New York Press of yesterday, says the dispatches express the hope that the Chinese Consul will push his claim for indemnity for the Rock Springs massacre. It believes that by that means, and a large sum being paid, the blackguards and scoundrels who perpetrated the outrage will be somewhat convinced of the inutility of their sport. That the criminals who mobbed and killed the Chinese should be punished to the full extent of the law, no one will gainsay. But the New York Star is correct when it says that it was an assault on one class of foreigners upon another class of foreigners, and that the chief concern of the United States is that it happened upon our soil. We some time ago pointed out that the Government cannot be held responsible to the extent of paying China life indemnity; for the Chinese Government itself has set the precedent of refusal. In the case of the massacre of foreigners in China in 1873, in which several Americans perished, the Chinese Government answered in damages for all property destroyed, but flatly refused to make good our demand for indemnity for American lives lost. It based its refusal upon what it claimed to be the principle of international law, and after some years of protesting the American Government acquiesced, and the rule between the Governments may thus be accepted as settled. By it China is stopped from making the claim the Press is anxious to see settled to starting proportions. The diplomatic correspondence regarding the massacre of 1873 will be produced whenever the Chinese representative professes his demand, and it will effectually and at once close his mouth. But even if the claim should be held good, and the liability of this Government admitted, how can the payment of a large sum to China in act as a restraining influence upon such men in foreign lands as resort to brute force to drive out Chinese workers? The burden of payment would not fall upon them—they would not feel, even indirectly, the punishment such a draft upon the public funds would inflict. Indeed, it is safe to say that such "smarting" of the country would be taken by them to be helpful to their cause, tending to rouse the people against Chinese labor, as the root of the whole matter. Men who mob Chinese and murder them are not sensitive to any such punishment of the public treasury as that proposed. The criminal Court, the dungeon and the rope alone have terrors for their kind.

Two Years at Solano.

MERED, September 21.—Owen McCarthy, known as "Scotty," having been convicted of assault to murder, was today sentenced to two years in the State Prison at Folsom.

Hot Weather and the Grape Crop.

St. HELENA, September 21.—If the present hot weather continues, the grape crop will be seriously injured. The heat is most intense. The berries are shriveling, and the quality of sugar in them is materially diminishing. A change in weather, however, is probable.

Terrible Result of Killing a Fire with Coal Oil.

TOMBSTONE, September 21.—Mrs. Burke, wife of R. J. Burke, a miner in Leadville, Colo., was killed by a light fire with coal oil. The result was a tragedy. She was at the cabin of a miner named Chatham, who works at the Tough Nut mine. Mrs. Chatham was lying sick. Mrs. Burke desired to make her some tea, and, making use of the coal oil can, it exploded, setting fire to the woman's dress and to the house. E. McNulty, a miner living next door, heard the report, and, looking out, discovered that the flames were consuming Mrs. Burke's clothes. Mrs. Chatham started to rush into the house to save a trunk. McNulty turned from Mrs. Burke to prevent her, when Mrs. Burke, burning as she was, rushed into the house to save her trunk. She supposed was in the flames, but which was safe in the yard at the time. McNulty rushed into the house, and found Mrs. Burke now terribly burned, and again brought her out of the fire. Others had, in the meantime, arrived, and Mrs. Burke was cared for. She is now dying. Mrs. Chatham was burned about the face somewhat, but is recovering. Her husband, who was driving said both women from the house, was burned on the hand only, his wooden clothing protecting him from all serious injury. The total loss will amount to \$1,000 or \$1,200. The building burned like tinder. The fire department could do nothing.

ORIGON.

The Holiday Suit—Opening of the State Fair.

PORTLAND, September 21.—The great suit of Ben Holiday vs. J. D. Holladay, which has been in the hands of a referee for nearly a year, will come up for trial in the State Circuit Court next Thursday. Ben suits for possession of property valued at \$150,000, which he claims was decided by a jury in 1911, but he claims that the suit was barred by the statute of limitations. Ben admits that he owes

RECORD-UNION MELANGE.

The Sacramento political tree has been shaken and R. D. Stephens gets the Post-office plume.

The Chicago Mail says that "a Chicago criminal case will be tried in the near future. It is a case of a man who has been in the hands of a detective." That may be sufficient assurance with the crooked over East but in San Francisco it doesn't compare with being "solid with the police."

The report of extended experiments with mercury as a remedy for phylloxera is given in another column, and shows that this specific is entirely inefficient. This will destroy the much cherished hope of vine-growers—that a means had been found of exterminating the worst enemy of the vine was to be overcome.

Frank Leslie's last week's illustrated pointedly shows the present situation of the silver question in a cartoon, wherein Uncle Sam has a silver dollar over each eye, and with a very perplexed look is pulling his beard, and at the same time holds up a placard, upon which are the words "an silver bird." Please assist me."

The Albany Times says: "The Sun is again asking 'Why should a Congressman be a public enemy?' The answer is, 'He must not be too critical. The burial of some Congressmen is a great public duty and pleasure. The Times has evidently been reading the California Record, an American Congressman of foreign citizenship.'

The attention of all politicians will be turned to-day, when the Republican State Convention will be held. The nomination for Governor is a tempting bait, and numerous candidates are willing to serve their party, but concerning which, such cool-headed men as Senator Evans and others of his class are seeking to find a sure rather than a candidate.

The position of Postmaster of Sacramento, to which Mr. Stephens was yesterday appointed by President Cleveland, is a slightly comfortable one, and which will enjoy for a term of four years—unless, per adventure, a Republican President should be elected in 1888, upon a civil service platform, by aid of Democratic mugwumps, in which case his place might be sooner wanted for some other faithful Republican.

The irrepressible Don Platt has been published in pamphlet form a letter he recently wrote to President Cleveland, entitled "The Silver Question." It is an elaborate plea to convince the President of the merits of the silver cause, and which also voted for him, no idea that civil service reform was to keep hungry Democrats out of office and keep the silver cause in the hands of the "devil was ill, the devil a saint was he." The devil got well, the devil a saint was he."

What the Gold Has Cost.

The Record-Union says: "One billion and a quarter of dollars in gold has gone to the making of the nation's reserve. But the gold mines of the Sierra. In wresting it from the Pactolus streams of the hills and the bowels of the mountains, man has so modified the processes of nature as to work great damage to the navigable streams of California. It is clear, therefore, that the nation owes it to himself and just dealing with California to care for these injured free highways, and restore them to and preserve their navigability."

The gold which has come out of the Sierra has not remained in California. It has been removed in the hands of the men who took it from the ground. It has been passed into the channels of commerce all over the civilized world. But, unfortunately, the gold from which this gold has been won is gradually moved down into the rivers and bays leading to the ocean. Most of the gold is in the hands of the men who took it from the ground. It has been passed into the channels of commerce all over the civilized world. But, unfortunately, the gold from which this gold has been won is gradually moved down into the rivers and bays leading to the ocean. Most of the gold is in the hands of the men who took it from the ground. It has been passed into the channels of commerce all over the civilized world. But, unfortunately, the gold from which this gold has been won is gradually moved down into the rivers and bays leading to the ocean. Most of the gold is in the hands of the men who took it from the ground. It has been passed into the channels of commerce all over the civilized world. But, unfortunately, the gold from which this gold has been won is gradually moved down into the rivers and bays leading to the ocean. SAFETY ABROAD

(SPECIAL BY TELEGRAPH TO THE RECORD-EXAMINER)

Socialist Row in London.

LONDON, September 21st.—At a meeting of the Socialists at the Lime House, yesterday, a riot was caused by police interference. Warrants had been issued for the arrest of the speaker, but the crowd prevented several attempts of the police, and it was only after hours of fighting that they succeeded in capturing the speaker, the Secretary of the Socialist League, and the steward of a German club. They also arrested six speakers, and took them to the police station, a crowd followed the police and their prisoners, shouting and making repeated rushes at them in endeavoring to free their friends. The police, however, stood their ground well, making a free use of their clubs and finally laming the prisoners in the lock-up. Thousands collected in the Court-room this morning, when the prisoners were brought in. The trial was kept open, and the constant efforts of a large force of police were required to keep order. The prisoners were each well-known Socialist on his appearance in the dock. One of the prisoners was charged, another who had assaulted a policeman, was charged with two months at hard labor. Kitts, one of the speakers, was fined one shilling, or given a month in prison. At a meeting of the League of Nations, the speaker adopted condemning the sentences as unjust, and the result of police brutality. It was determined that a persecution should be resisted to the utmost.

The Riot in Paris.

PARIS, September 21st.—The riot yesterday was a much more lively affair than first supposed. The uproar was terrific, and blood flowed freely. Revolvers were fired profusely, and loaded sticks, clubs, and brass knuckles were used in the fray. While Joffrin and Allemane were conveying hundreds of ex-Communists inside the city, a mob of anarchists burst into the vast hall, howling and yelling the names of their own candidates in a deafening chorus. The Municipal Council, was seen leading one of his friends, whose hand had been taken outside who had received a bullet in the nose of his neck, which was a serious wound. Several others received terrible injuries from loaded canes and pieces of the platform and furniture thrown upon them. Allemane was a spy and a socialist, and his jaw broken by a blow from the leg of a chair. Others were injured by broken glass. This was the most serious riot since the taken place for a long time in Paris, and it is feared that in the present state of popular feeling, disorders of a still graver character may occur.

Earthquakes in Italy.

ROME, September 21st.—Repeated shocks of earthquake were felt in Benevento, Italy, causing a panic among the inhabitants, many of whom fled from town. A large portion of the population is camping out, in anticipation of further shocks.

The Cholera Situation.

ROME, September 21st.—Cholera is spreading in Sicily, and the situation is becoming serious. Every town is suffering from outbreaks between the populace and the military are continually occurring, and many persons have been wounded. A large military force is to be dispatched to the island to restore order.

The Small-Pox Scourge.

MONTREAL, September 21st.—The number of small-pox cases in St. Henri is increasing. A large percentage of persons now on the streets of the village are freshly rock-marked, and nothing is to be seen of the disease. Owing to the death of some persons in the east end of this city who were not vaccinated, a large number of others who had been inoculated, many believers in this method of fighting the disease are alarmed. The disease has made its appearance at Ierville, in this province. At a meeting of citizens, it was decided that it was stated that the plague had spread to alarming extent. The French people, it was said, were careless about the matter, and there was danger of a still further increase of the disease.

The Annexation of Roumelia.

PARIS, September 21st.—Semi-official notices tend to confirm the report that the annexation of Roumelia, act entirely independent of Russia, in annexing Roumelia, and was impelled by Bulgarian public opinion. It is considered improbable that Turkey will accept a pecuniary compensation for the loss of Roumelia, because the Balkan frontier is necessary to Constantinople. It is believed that the Porte has resolved to fight, in order to restore the status quo, but that the powers, especially as the English rights have been raised in 1876, the Spanish Minister declared that he claims to the Carolines had been raised by Spain.

European Finances.

LONDON, September 21st.—Reports from various Continental sources speak of a panic feeling prevailing in financial circles during the greater part of the day, but toward the finish of the day, the market at several of the Bourses rallied somewhat from the lowest prices of the day. The closing prices, however, were heavy, and figures, as compared with Saturday's closing figures. Various rumors were set afloat by Paris stock jobbers, in order to keep up the excitement, including the report that Turkey was mobilizing her army, preparatory to reasserting her claims in eastern Roumelia. The market, however, was quiet, and the Stock Exchange closed dull, with a slight recovery from the lowest point of the day.

Captured by Belgians.

SALONICA, September 21st.—Belgians have captured Archbishop Verias, his wife and daughter, and a number of other persons of 23,000 as a ransom for the prisoners.

A Deposed Governor.

SOFIA, September 21st.—Gabriel Pashia, the deposed Governor of Roumelia, is a prisoner here. The National Assembly has been summoned to meet Wednesday.

Merchants Banished.

LIMA (Peru), September 21st.—Several merchants, implicated in the Caserio movement, have been banished from the country.

Russians En Route to Bulgaria.

LONDON, September 21st.—A large number of Russians, believed to be volunteers, are passing through Bucharest daily en route to Bulgaria.

Damaging Storms.

BUENOS AIRES, September 21st.—Heavy storms are prevailing over the board, causing much damage. Several mills, warehouses have been destroyed, and a number of houses are in ruins. Reports of loss of life have been received. A high sea is still running.

Wholesale Robbery of a Railway Company.

MONTREAL, September 21st.—The Canadian authorities have for some time entertained suspicions that they were being victimized by their own officials and contractors in the section north of Lake Superior. About a month ago all payments to contractors were stopped, and a remittance of the different sections of the line. This has just been completed, and it shows that by a blunder or fraud the company has paid to its contractors the sum of \$200,000 in excess of the amount of work done. One contractor alone has been paid more than \$100,000. The full amount aggregating \$500,000. Detectives have discovered that the contractor was receiving salaries of \$200 a month, were wealthy land proprietors, and were engaged in extensive building pursuits. They were found to have been paid \$20,000, which had been accumulated in a wonderfully short time. It is stated that criminal and civil proceedings will be instituted. Many of the contractors implicated have already retained leading counsel to defend them, who will plead that the remittances are incorrect.

Confiscation of Valuable Silver Mines.

GALVESTON (Tex.), September 21st.—The New Eagle Pass special conference, the result of which has reached here, the confiscation of the Las Cruces silver mines, the Carnation, produced a great deal of excitement. The Secretary of the Mexican Government, against the owners, Slaps, Davis and all the other American owners. The Secretary produced alleged claims, whereupon the Mexican soldiers dispossessed the American owners and took possession of the mines. There were the same mines whose discovery led to such excitement about six months ago, and which yielded 100 ounces of silver in the ten. The chances are

AGAINST THE AMERICAN OWNERS

possession, being unable to litigate in American Courts, until the State Council of the United States, in the Council of the United States, is interesting himself in behalf of the American claimants, and possibly may put them in possession again.

CONDENSED DISPATCHES.

Small-pox has appeared in New York and Brooklyn—two cases in each city.

Loziza, a Mexican Custom-house Inspector, Paso del Norte, is to be removed.

The Rev. Dr. William Smith has been appointed Catholic Archbishop of Edinburgh.

Thirty-seven new cases of cholera and fourteen deaths were reported in the Spanish lists at Gibraltar Saturday.

A diamond dealer named Fawcett has swindled M. Bassett and M. Gullet, of Paris, out of stones worth over 70,000 dollars.

Alarming reports have been received in Paris to the effect that China is massing a large force of troops upon the Tonquin frontier.

Since Prince Demosk returned to Berlin on Saturday he has been extremely busy and has postponed his departure to Friday.

It is alleged that the plaintiff in the Bell divorce suit at Washington has bribed with money to swear against the character of Mrs. Wilson.

Mrs. Wilson, the Montreal woman accused of administering glass to her husband, is believed to be in New York, and denies all the charges against her.

United States Minister Cox and Consul-General Hear have succeeded in obtaining the release of a number of expelled American Jews from Jerusalem.

All communication between Turkey and Bulgaria has been cut off. Turkey has stopped all railway traffic for points beyond Adrianople.

King Humbert has sent a dispatch to Palermo, expressing great sympathy for the Sicilians, and has ordered a sum of \$10,000 to be distributed among them.

E. A. Puschel has been appointed Postmaster at Bakersfield, Cal. Vice H. A. Juskany is believed to be in New York, and denies all the charges against her.

Much interest is exhibited at the Hague by the trial of the case of the Japanese Charge d'Affaires, who was killed by a Belgian.

The Belgian Government is preparing a bill to authorize the sending of papers to Congo as colonists, provisions being made in the bill to secure them means of obtaining a livelihood.

One hundred German residents of Paris gave a farewell dinner Sunday to Prince Louis of Battenberg, retiring German Ambassador, who was returning to his native land of Alsace-Lorraine.

In an attempt to arrest Albert Aldrich, on his way to the Philippines, a man named Bradley shot him in the back, and Aldrich's son was wounded. The Aldrich family now departs.

The Russian Government has ordered that the bodies of those who were killed in the Russo-Turkish war should be buried in the land of the victors.

The New York Star begins a series of articles on the subject of the Russo-Turkish war, which it proposes to establish the fact that the "absurd and monstrous system" called "protection" must go and give place to free trade.

Mrs. Mary C. Kall, of Ohio, has been dismissed from her clerkship in the Treasury Department for offensive partisanship, having written a newspaper article which was published by the Blaine committee last fall.

The leading Clearing-houses of the United States report that the total clearances for the week ending September 19th amounted to \$17,244,880, an increase of 10 per cent. over the corresponding week last year.

The opinion prevails among New York sporting men that Bismarck's jockey did not win the Long Island stakes on Saturday. Bismarck looked like the winner, and had plenty of California money in the pool.

A better feeling prevails in Madrid, owing to reports having been received from Count Benomar, Spanish Ambassador to Berlin, to the effect that the Emperor of Austria will accept the offer of a naval coalition.

It is rumored that the various Consulates in Philadelphia that the Emperor of Austria has succeeded in dissuading the Porte from sending Turkish troops to Eastern Roumelia to regain possession of the country.

The Russian press are jubilant over recent events in Eastern Roumelia, but seem to have forgotten that the Emperor of Austria has expressed the belief that the affair was arranged at a meeting of the Emperors at Berlin.

Emperor William and the King and Queen of Wurttemberg on Saturday received 15,000 men of the Wurttemberg army, who were on their way to the front, and stood for two hours in their carriage, witnessing the maneuvers of the troops.

A Council of Ministers was held in Constantinople, at which the Emperor of Austria was present, and the powers to maintain the rights of the Sultan, at which it was decided to apply the powers to maintain the rights of the Sultan, at which it was decided to apply the powers to maintain the rights of the Sultan.

Reports from Palermo regarding the progress of the distribution of the plague are all reassuring. The city is now in a state of affairs prevailing there. Thirty thousand persons have fled from the city. All shops are closed, and the streets are empty.

Delegates to the Republican State Convention arrived at Saratoga in large numbers yesterday. The most prominent came from the Governor's office, and from the State House. The delegates are all well, and are expected to remain in Saratoga for some time.

Deputies to the Republican State Convention arrived at Saratoga in large numbers yesterday. The most prominent came from the Governor's office, and from the State House. The delegates are all well, and are expected to remain in Saratoga for some time.
